Profitable Merchandising

Okay…

Great!

Same Merchandise Space, 100% more Product! $$$

Convenience Store Trends

- Backrooms out
- Higher fixtures
- Front end - selling

Understanding Every Shopper

- Attractive and clean place to shop
- Convenient access to merchandise
- Aisles wide enough to prevent crowding
- Freedom from obstruction that prevents a clear view feeling safe

Gondola Shelving

- Gondola Shelving is the classic store shelving workhorse most commonly featured in the retail industry.
- All Handy Store Fixtures gondola shelving units have been designed to provide maximum strength, durability and ease of use for many years.
- Handy Store Fixtures gondola shelving has a number of features that are intended to improve lifetime, including factory-bolted base supports and welded end trim.
- There are no base supports to attach on the job or replace EVER.
- ***Some highlights of our gondola shelving units include:***
- 7" high kick front toe
- Leveling screws are included with your gondola shelving
- Shelves adjustable on 2" centers
- A variety of back panels available
- Extenders available to easily change height
- Shoes and uprights are factory pre-assembled
- Uprights are single piece construction on heights up to 144"

Beer Cave Shelving

- Handy Store Fixtures Beer Cave Shelving is perfect for storing a large variety of beverages inside refrigeration units
- Steel shelves positioned on shelf supports, are designed to make grabbing cases of merchandise simple
- Available in dimensions 84" and 78" high, either 24" or 30" deep, and in 3", 4", 6", 7", or 8" lengths
- 84" high Beer Cave Shelving units are structured that the top 3 shelves including lips are gravity fed and the bottom 2 shelves are flat
- 78" high Beer Cave is structured that the top 2 shelves including lips are gravity fed and the bottom 2 shelves are flat
- Available in black color NSF approved
